REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the prior art of record fails to show or suggest a floodwater barrier system comprising first and second end caps, wherein the end caps comprise a retaining member having a center opening that is shaped and sized to fit about the shoulder to securely retain the tubular member to the flanged end plate when one of the ends of the tubular member is positioned between the shoulder and the retaining member. The closest prior art, German '493, discloses an end cap having a shoulder 5, wherein a conduit 1 appears to snugly fit about the shoulder. Germany '493 is silent to a retaining ring.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Frederick L. Lagman whose telephone number is 703-305-7456. The examiner can normally be reached on Monday-Friday 9:00am to 5:30pm.
